Camp Sherman's Spooky Halloween by Cade, grade 5

Halloween in Camp Sherman is fun and spooky! Everyone gets in on the fun by wearing costumes. After we all get in our costumes we go trick or treating together in the Meadows. Every year BBS hosts a fun party with cool inflatable characters, games and treats! You don't want to miss out on the fun games and yummy treats. But, watch out you don't want to get spooked by your friends!

People wear all sorts of costumes, from dinosaurs to The Hulk, and even a few princesses. Watch the dino dog spring into action as he runs around the neighborhood trying to steal people's candy! This year we will all be wearing COVID costumes, which means we will all be wearing a mask. That will be easy for some people like me because we have built in bubbles to see through. Everyone loves Halloween no matter what the weather brings.

I wonder who will have the best costume in Camp Sherman this year?

Safe & fun Halloween trick-or-treat and party

Students learning with Trout Unlimited and Caldera at Blue Lake

Kinder and 1st Grade Math Fun! by Teacher, Kassie DeMarsh

In October, kindergarten and first graders worked on number sentences and knowing when to use addition and subtraction. Kinder students focus mostly on knowing numbers and learning when to use which. First graders are becoming experts in number sentences and even doing the work all in their heads. They created Addy Addition and Sam Subtraction to show what they learned.

Blue Lake Field Trip by Zion, grade 5

Black Butte School went on a field trip to Blue Lake where we learned about a healthy and protected ecosystem. The staff at Caldera taught us about Blue Lake and the kokanee spawning area. They told us how and why the lake is protected. I will give you some details. Blue Lake is formed by a crater from a volcano. It is a very protected area because kokanee spawn there. Staff at Caldera, who owns property on the lake keep a tradition of preserving and taking care of the lake. US Forest Service sent professional scuba divers to explore Blue Lake. The scuba divers measured it to be about 350 feet deep. I interviewed some students to see what they thought about the field trip. Mia in 5th grade said, "it was so fun to see Blue Lake, it is a once in a lifetime opportunity." Zoe in 2nd grade said, "I will like to go on field trips every day, I love the forest!" Eden, another 2nd grader exclaimed, "it was so amazing that we got to see kokanee spawning."

Black Butte School is a public K-8, two-room schoolhouse nestled in the community of Camp Sherman, OR
